FOR IMMEDIATE RELEASE

ENGINES PLUS TO LAUNCH NEW CANALINE HYBRID ENGINE AND INTERACTIVE ZONE AT CRICK BOAT SHOW 2024

[Engines Plus](#), the leading provider of marine engines and parts in the UK and Ireland, is pleased to announce its participation in the upcoming Crick Boat Show, taking place from 25th to 27th May 2024. As the excitement builds for this highly anticipated event, Engines Plus is preparing to unveil an array of exciting offerings at Stand Q38.

Launching the very latest in innovation, Engines Plus will be introducing the Canaline Hybrid Engine. Representing a significant advancement in marine propulsion technology, this cutting-edge engine seamlessly combines power and sustainability to deliver exceptional performance on the water. The Hybrid system will be available across all models, from the 38 to the 70T, and will be offered as 9kW, 13kW and 16kW options, depending on the boat size. When in diesel mode, the drive will also then charge the bank of batteries, and be used for propulsion.

In addition, Engines Plus will further boost their presence with an interactive zone on their stand, delivering a fully immersive experience. This dedicated area will provide attendees with firsthand insights into various ways to service their engines, offering invaluable tips and techniques directly from industry experts. Visitors will have the unique opportunity to interact with knowledgeable professionals, gaining practical knowledge to enhance their boating lifestyle.

To enhance their Crick offering, Engines Plus will be promoting an exclusive show offer. Customers purchasing any Engines Plus parts and spares at the event will enjoy complimentary delivery to their doorstep post-show, ensuring a hassle-free experience. Additionally, pre-orders placed through the Engines Plus website before the show will qualify for free click and collect, providing added convenience for customers.

"We are thrilled to be part of Crick Boat Show 2024 and to showcase our latest innovations to the boating community," said Hedley Beavis, Managing Director at Engines Plus. "Our interactive zone and the launch of the Canaline hybrid engine exemplify our commitment to pushing the boundaries of marine technology while providing exceptional service to our customers."

As UK and Ireland distributors for numerous leading marine brands, the impressive Engines Plus portfolio serves to highlight their continued commitment to the supply of top quality products to all customers.

Don't miss the opportunity to explore the Engines Plus offerings and interact with industry experts during the show. Visit Stand Q38 to discover the future of marine engineering and take advantage of some exclusive show offers.

ENDS
